

Professional Green Building Council

Professional Green Building Council International Conference 2025 Beyond Zero Carbon Design

Themed “**Beyond Zero Carbon Design**”, the Professional Green Building Council International Conference 2025 will deliberate on carbon neutrality in terms of overseas practice, recently-developed systems and policy, new materials, ESG investment, approval process, and building codes. Cases studies sharing from various international project teams involving design, construction and operational stages will be covered. Cases involve new buildings, existing building retrofits, historical building revitalisation, and infrastructure projects. We believe the International Conference 2025 would further help create a more sustainable Hong Kong by promoting the adoption of beyond zero carbon design.

13 January 2025 (Monday)
9:30am - 5:00pm

Venue : BEC Auditorium and Exhibition Hall
G/F, 77 Tat Chee Avenue,
Kowloon Tong, Hong Kong

Format : Hybrid (Physical and Online)
